CAREER OBJECTIVE

Motivated and enthusiastic graduate seeking an opportunity to start my career in a growth-oriented organization. I aim to apply my knowledge and skills, learn new technologies, and gain practical experience while contributing to the success of the organization. I am a quick learner, a good team player, and committed to continuous learning and professional growth.

EDUCATION

Master of Computer Application

2025 – 2027 (Currently Pursuing)

Amal Jyothi College of Engineering Autonomous, Kanjirappally | APJ Abdul Kalam Technological University

- Cumulative GPA: 9.01/10

Bachelor of Computer Application

2022 – 2025

Maharaja Institute of Technology Mysore | Mysore University, Mysore, Karnataka

- Cumulative GPA: 8.65/10

TECHNICAL & BEHAVIORAL SKILLS

- Technical Skills:** Python, SQL, C Programming, HTML, CSS
- Behavioral Skills:** Data-Driven Decision Making, Communication, Fast Learning, Problem Solving
- Languages:** English, Malayalam, Hindi

EXPERIENCE

Web Development Intern

June 15, 2026 – June 27, 2026

M-Squared Software & Services (P)Ltd | Thiruvananthapuram, Kerala, India

- Completed an intensive web development internship, gaining hands-on experience in building responsive websites using HTML, CSS, JavaScript, and modern web practices.
- Collaborated on web architecture and UI implementation while demonstrating strong technical and problem-solving skills.

Frontend Developer Intern

March 10, 2025 – May 2, 2025

Geek Wick TechMedia Services Pvt Ltd | Mysore, Karnataka, India

- Developed responsive UI components using React.js and Tailwind CSS, successfully converting Figma designs into functional layouts.
- Integrated REST APIs using Axios, and implemented routing and state management to optimize frontend performance.
- Technologies Used:** React.js, JavaScript (ES6), Tailwind CSS, Axios, Git, GitHub, Figma

PROJECTS

Traffic Sign Detection and Recognition Using YOLO & Deep Learning

- Developed a real-time detection and recognition system utilizing YOLOv5/v8, and implemented deep learning classification models (ResNet, EfficientNet, ConvNeXt, VGGNet).
- Technologies Used:** Python, YOLO, OpenCV, TensorFlow, Keras, ResNet, EfficientNet

Student & Employee Leave Management Hub

- Built a secure web portal for handling leave requests, managerial approvals, and role-based authentication using Django.
- Technologies Used:** Python, Django, MySQL, JavaScript, Bootstrap, CSS, Chart.js

COURSES & CERTIFICATES

- Machine Learning for Engineering and Science | NPTEL
- Blockchain and Its Applications | NPTEL
- Level 2 Funded Certificate | I2U
- Certificate of Appreciation | Smart India Hackathon 2025
- Participation Certificate | Nasa Space Apps
